Welcome to PEAK 3D!

Your child will soon be participating in a unique science education program that will transform the way your family thinks about and uses energy, water, and other resources. PEAK 3D teaches students how to become smart resource managers in their home, and at school and their communities. Starting in your home, you and your child can discover practical solutions that will save energy and reduce your energy bill.

Goals of PEAK 3D

- Empower your child with an ethic of sustainable energy and water management that lasts a lifetime.
- Demonstrate practical applications of math, science, technology, engineering, and design.
- Promote Student Energy Actions:
 - Adjust your time of use
 - Care for our air
 - Turn it off
 - Initiate change
 - Oppose water waste
 - Nurture the planet
 - Shape the future
- Reduce energy and water consumption in your home and at your child's school.

We look forward to introducing this exciting curriculum to your child's classroom. To maximize his/her experience, we offer three starter steps below.

How you fit into this equation. Your first homework assignment!

Take the Energy Challenge	Get involved	Support Student Energy Actions
<p>Many lessons in the PEAK 3D program involve students measuring, tracking, and evaluating electrical and natural gas usage in their own homes. Visit the PEAK website (www.peakstudents.org) to learn about STEM Heroes by watching a short video. Read about our energy superhero, Bulbman, and his villain counterparts, Ivana Waste, Energy Sucker, and the Energy Monster. Learn how to read your family's utility bill and come up with ideas for saving energy and water!</p>	<p>Students will have the opportunity to take energy-saving actions throughout the year with 1 Million Energy Actions campaign! You and your child can pledge to take action against energy waste and be entered to win a monthly prize. Enhance your child's learning by encouraging their participation. Follow @1millionenergyactions on Instagram or email education@energycoalition.org to be included in the next 1 Million Energy Actions contest. Your child may be the next 1MEA contest winner!</p>	<p>Your child will be learning energy and water conservation techniques. As a family, visit the PEAK website (www.peakstudents.org) and learn about rebates and incentives offered by your utility company that will save you money on your utility bill. Make a plan to save energy and water at home. Watch how your actions result in energy savings!</p>

If you have any questions or suggestions, please feel free to contact an Education Specialist at education@energycoalition.org.

The PEAK 3D program is funded in part by California utility ratepayers and administered by Pacific Gas and Electric Company, Southern California Edison Company, San Diego Gas & Electric Company and SoCalGas under the auspices of the California Public Utilities Commission. In addition, the program is brought to schools served by Anaheim Public Utility and the Los Angeles Department of Water and Power through community partnerships.
